===== SECTION VII - PRECAUTIONS FOR SAFE HANDLING AND USE =====

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED

Prevent material from entering sewers or waterways. Remove all source of ignition (flames, hot surfaces, and electric, static, or frictional sparking sources). Ventilate area. Absorb with inert materials such as vermiculite or sand.

WASTE DISPOSAL METHOD

Dispose in accordance with local, state, and federal regulations.

PRECAUTIONS TO BE TAKEN IN HANDLING AND STORING

Material is combustible! Vapors of mineral spirits are heavier than air and may travel along the ground or be moved by ventilation to locations distant from the point of material handling. To prevent ignition, avoid smoking, keep away from

heat, open flames, and sources of static or electrical sparking.

OTHER PRECAUTIONS

Keep closure tight and container upright to prevent leakage. Keep out of the reach of children.

===== SECTION VIII - CONTROL MEASURES =====

RESPIRATORY PROTECTION

If spray mists are generated, wear NIOSH approved particulate respirator.

VENTILATION

Use local exhaust if conditions exist that permit high vapor concentration.

PROTECTIVE GLOVES

Use chemical-resistant gloves when there could be direct contact.

EYE PROTECTION

Wear safety eyewear

OTHER PROTECTIVE CLOTHING OR EQUIPMENT

Use chemical resistant apron or other impervious clothing, if needed, to avoid contaminating regular clothing which could result in prolonged or repeated skin contact.

WORK/HYGIENIC PRACTICES

Minimize breathing vapor or mist. Avoid prolonged or repeated contact with skin. Remove contaminated clothing; launder or dry clean before reuse. Remove contaminated shoes and thoroughly clean and dry before reuse. Cleanse skin thoroughly after contact, before breaks and meals, and at end of work period.
